

44012LR

12,000 lb. capacity

1 Provide safety and security allowing 2 people to work on oil changes

2 Provide convenience and drive-thru flexibility

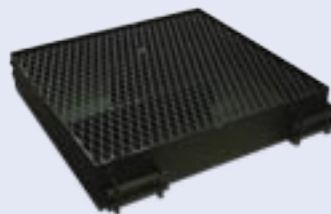

3 Needs emptied less often which increases productivity

4 Enables lift to be in drive-thru service application

Teamwork

Challenger Lifts 44012LR is the best choice for a two person oil change operation. This Lube Rack is optimized for speed and efficiency. Its design allows one person to check fluids under the hood while standing on the diamond plated catwalk and another underneath, to change filters and fluids.

With optional drive thru ramps and oil drain pan, the 44012LR is a perfect supplement to any service facility.

Oil Drain Pan

Reduce your facility down time with 32 gallon oil drain pans. Features a baffled splash resistant design.

Drive-Thru Ramps

Drive-Thru ramps maximize time and space by allowing technicians to drive straight thru versus backing out.
