

Features and Benefits

44030

30,000 lb. capacity

1 Provides maximum reliability and durability

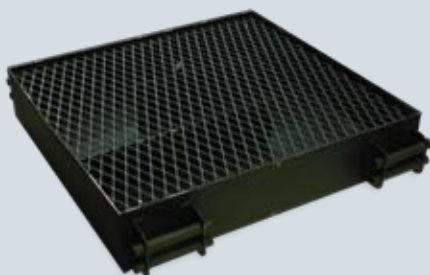

2 Provides optimum lifting with minimum maintenance

3 Allows technician to disengage column locks simultaneously

4 Enable alignment servicing capabilities

5 Provide positive vehicle tire traction to minimize slipping

6 Provide complete optimization for your Heavy-Duty 4-Post servicing needs

Oil Drain Pan

The 32 gallon oil drain pan reduces the number of times a technician has to stop between oil changes. The oil drain pan is also baffled for splash reduction, keeping technicians clean and professional.

Rolling Jacks - SAJ15

Optional 15,000 lb. capacity rolling jacks allow brake and wheel access, broadening potential service revenue.
