

AR40series

12,000 lb. capacity

The Automotive Lift Institute (ALI) certifies that the AR40series Lifts described herein complies with the applicable provisions of the American National Standards ANSI/ALI ALCTV 2006 and are Third Party Validated by the ETL Testing Laboratory.

- 1** Provides maximum head room for working underneath vehicles
- 2** Allows technician to work at an ergonomic working height to increase productivity and minimize fatigue
- 3** Distribute contact load to reduce column stress for longer product life

- 4** Reduces column deflection
- 5** Offer a wider range of 4 wheel alignment capacities
- 6** Prolong pulley and cable life
- 7** Provide more precise alignment readings

Stainless Steel Radius Gauges

Challenger Lifts' AR40series alignment racks come complete with corrosion resistant stainless steel turning radius gauges. These gauges are compatible with today's latest 3D alignment systems.

Rolling Jacks - RJ6

Two 6,000 lb. capacity rolling jacks are included providing the complete alignment package.
